

CSG STORED PAYMENT INSTRUMENTS

Each year, CSG processes 270 million card payments and 95 million ACH payments. We drew from that experience when we designed Stored Payment Instruments, our flexible, robust solution for the storage of payment instruments to allow faster and easier payment processing.

CSG Stored Payment Instruments allows your customers to store their payment methods for future use while enhancing security and making it easier than ever for customers to access their accounts and purchase histories.

BENEFITS

With Stored Payment Instruments, CSG has added robust capabilities via a Web Services layer that empower consumers to choose how and when they pay for services.

These features are already integrated into the CSG ACP billing platform, giving you seamless capabilities and faster time-to-market.

Key benefits include:

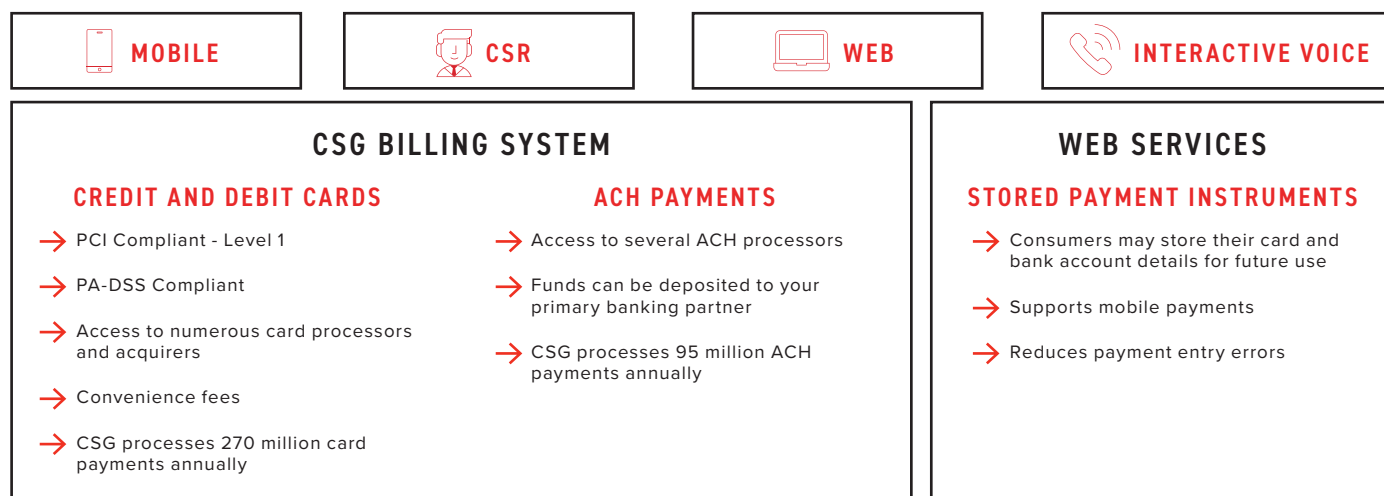

- Support payment profiles through multiple channels including Web, IVR, and customer service

- Flexible payment methods for consumers that allow them to choose how and when they pay for services—even through mobile devices
- Process ACH and card payments with Stored Payment Instruments
- Payments can support both full and partial authorization
- Convenience fees can be assessed to minimize your costs
- Allow your customers to schedule payments, reducing late or forgotten payments and set up recurring payments

REALIZE THE POTENTIAL

CSG Stored Payment Instruments is just one of the features we offer in our comprehensive solution suite that enable you to engage and transact more effectively with your customers.
