

CSG Digital Wholesale SaaS

The wholesale market has dynamic requirements, driven by regulatory bodies and intense competition. But with tight margins it takes significant time and resources to justify system upgrades and improvements, taking focus away from real business operational improvement. Operators are missing out on the latest functionality to support market demands, instead directing investment to propping up legacy systems.

Why CSG Digital Wholesale SaaS Solutions?

CSG Digital Wholesale SaaS is a cloud, out-of-the-box service offering, bringing together the best of the CSG Digital Wholesale Suite. CSG Digital Wholesale SaaS puts the focus on your business with the most comprehensive wholesale solution on the market. The software is always up-to-date for the latest functionality, avoiding costly upgrades.

The API-driven SaaS solution lets you:

- Access the entire CSG Digital Wholesale suite of applications in the Cloud
- Pay and consume only what you use or need
- Focus on your business needs and outsource operational tasks
- Lower your capex and opex with a system that is automatically updated

Using CSG Digital Wholesale SaaS, your data-driven operations are automated through client interfaces and published APIs. This lets you focus on the business requirements while leaving the operations to CSG. We'll help you get up and running in no time—quickly deploy CSG Digital Wholesale SaaS with flexible payment models.

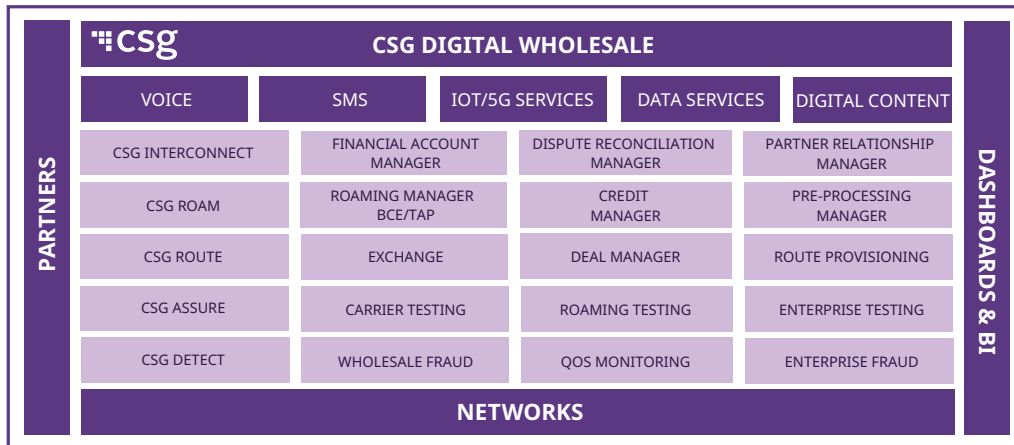

Tailored to Your Business Needs

CSG Digital Wholesale SaaS consists of a set of modular components that can be enabled to provide support for:

- Wholesale and interconnect settlements
- Multi-party B2B2X and digital services settlements
- Partner management and on-boarding
- BCE and TAP based roaming settlements
- Optimized trading and routing
- Service Assurance
- QoS Monitoring
- Fraud Detection and Blocking

Utilize Data-Driven Solutions

CSG Digital Wholesale SaaS easily integrates with the systems you already have. The CSG Digital Wholesale SaaS infrastructure supports REST APIs, standardized interfaces for incoming and outgoing file interfaces, and bulk data update and extract mechanisms.

Manage transaction and invoice data in fixed and configurable formats. With CSG Digital Wholesale SaaS, you can access product and subscriber data to provide more targeted customer experiences. We offer multiple APIs supporting:

- Buy and Sell Price Lists: automated receipt and loading of supplier price lists, and creation and distribution of customer Sell Price Lists
- Transaction Input: events, financial transactions and invoice data. File formats can be defined in configuration. Files can be loaded automatically.
- Transaction Output: rated events can be extracted either ad-hoc or continuously, in fixed or configurable formats
- Financial Output: financial data and Invoice data interface files to back end systems, in fixed or configurable formats
- Switch Provisioning: integration with switch to configure routing

Leading Security and Operations

CSG Digital Wholesale SaaS is designed with security and data sovereignty in mind. We understand the importance of security, which is why CSG Digital Wholesale SaaS is hosted in a secure cloud environment. CSG provides:

- Service Management: overall management of strategic and operational execution
- Application and Environment Support – Access help desk, incident recovery and resolution, and continual updates
- 24/7 Monitoring Supervision – monitor the status of all applications and services
- Infrastructure Support – hardware maintenance, administration, connectivity, back-up and security
